

It is very important that we register our opposition to this application.

It is inconceivable that there will be a significant S106 that will address the access and egress issues, the drainage issues, the transport issues and how dangerous adding hundreds of homes and several hundreds of cars on this road and on this side of town is in anyway sensible.

Without a coherent master plan, adding housing development in a disjointed and adhoc way results in a couple of roundabouts and a park.....the town needs a plan that delivers the right infrastructure and amenities.

The way it is currently progressing, obvious to all residents, is gridlock, pollution, lack of key services and ultimately the loss of a unique town known for its heritage and beauty.
