Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I strenuously object to the above planning application, fundamentally there is no infrastructure in place for another 233 houses on a GREENfield site that is home to many wildlife, that will have a serious impact on their environment as well as mine and all residents of swards end.

The mental well-being of moving to swards end to specifically live in a village but end up living in a town is detrimental, we moved here to have country fields around us not great big housing estates as I'm sure is the same for most of the residents in swards end, of course as so many have commented, the traffic on Radwinter rd going down to the town will be horrendous and this on a road that already suffers from flooding and potholes.

You can't get to see a doctor at the best of times and the secondary school here is over subscribed, where are all the kids supposed to go, is there no end to this madness.
