Dear Sir/Madam

Redundant Pipelines – Land Powers (Defence) Act 1958 (formerly part of the GPSS)

Thank you for your enquiry dated 6 August 2021. Using the confirmed location provided by your LSBUD search, our records indicate there may be a redundant pipeline in the area shown on the attached plan. The plan(s) supplied are intended for general guidance only and should not be relied upon for excavation or construction purposes. If you are working in close proximity to the pipeline we would recommend that you seek the advice of a specialist pipeline contractor by contacting the Pipeline Industries Guild, along with gaining confirmed asset locations and agreements from any other asset owners that may be affected by your works.

This pipeline has been declared redundant by the Ministry of Defence and the necessary legal charges have been removed in accordance with the Land Powers (Defence) Act 1958 and subsequent legislation. If the landowner wishes to remove the pipeline from the land they may do so at their own cost; however, as different methodologies were used to decommission pipelines we would highly recommend using specialist contractors.

This letter relates to the abandoned pipelines from the former Government Oil and Pipeline System and you should make separate enquiries relating to live pipelines owned by other third parties that may be in close proximity.

Yours faithfully

DIO (MOD Abandoned Pipelines)
